

**Announcement**

**Advanced School on Earth System Modelling & Workshop on Climate Change and Regional Impacts over South Asia, July 18-29, 2016, IITM, Pune**

The Indian Institute of Tropical Meteorology (IITM) and the Abdus Salam International Centre for Theoretical Physics (ICTP, Trieste, Italy) are jointly organizing an Advanced School on Earth System Modelling (ESM) during 18-27 July, followed by a Workshop on Climate Change & Regional Impacts over South Asia during 28-29 July, at the IITM, Pune, India.

**Participation**

The ESM School and the following Workshop will benefit Ph.D. students, Post-docs and Scientists from Universities and Research Institutions, particularly from the South Asian region and the Indian Ocean rim countries. The school will cover all topics of Earth System Modelling, from the ocean and atmosphere systems to land and ocean biogeochemistry. At the end of the school, we expect student teams to have completed a model run and make a public presentation of key results of the simulation.

A limited number of grants are available to support the travel and living expenses of selected participants. The School will be conducted in English. Registration is free-of-charge for all attendees.

The "On-line Application" form can be accessed on the ICTP activity website at: [https://e-applications.ictp.it/applicant/login/2837](https://e-applications.ictp.it/applicant/login/2837) inclusive of a step by step instruction guide.
