Some NEW News of Zoo Outreach Organisation

NEW staff persons

We have hired lots of new people to help with both old and new projects. They are (since last 4 months) Pravin (for Latha on maternity leave), Sreekanth (sis dot com), Somu (BCPP), Manohar (BCPP), Selvaraj (Office boy and screen printing), Prabhu (screen printing).

NEW baby

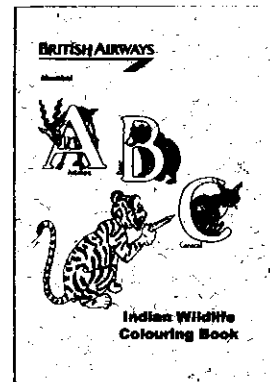

Our Office Manager and Circulation Manager Latha Ravikumar had a baby boy on 5 December. We prevailed on her to come to the party and bring him along. He is the only guest without a hat! Unlike everyone else, he made no noise at all.

NEW colouring book

British Airways Assisting Conservation assisted us to print a beautiful colour poster which most of you have seen. We took the charming drawings of Indian wildlife and made a colouring book, the ABC of Indian Wildlife Colouring Book.

British Airways, Mumbai has ordered these colouring books to give away to kids in the security lounge to keep them busy (and out of everyone's hair) while the long hours pass while waiting for an international flight.

We have some extra. Order one for yourself.

New skills and projects

We added a screen printing unit to our office with funds provided by the Universities Federation for Animal Welfare (UFAW). We got an expert to come and teach Gunasekaran and Sreekanth and now they are training others. Guna, who has much creative talent and an interest in conservation education as well as his information network project, is in charge of the unit and will be supervising the creation and production of many simple but attractive educational items for zoos this year. Some of them have already been sent to zoos which requested them for Animal Welfare Fortnightly. Thanks UFAW! It also gives us a great way to use leftover bits of handmade paper from ZOOS' PRINT covers !!!
